The image shows the interior of a Nissan Terrano, focusing on the driver's side. The dashboard and center console are finished in a light beige or cream color, contrasting with the black piano finish of the infotainment and climate control areas. The steering wheel is black with a silver Nissan emblem in the center. The instrument cluster is visible behind the steering wheel. The car is parked on a dirt road, and the view through the windshield shows a rugged, hilly landscape with a body of water in the distance under a blue sky with scattered clouds. The side mirror reflects the same landscape. The overall impression is one of a well-appointed, premium interior designed for both comfort and functionality.

IMPRESSIVE PREMIUM INTERIORS.

The Nissan Terrano is designed to be equally impressive from the inside. Every inch is well thought out and its well appointed premium interiors make for a comfortable drive on any terrain. The power centre revolves around the stylish beige dashboard and the piano black console cluster from where you take control of your Nissan Terrano.
