

TRAILBLAZER

CHEVROLET

CHEVROLET TRAILBLAZER

The biggest and the most powerful SUV in its segment, the Chevrolet Trailblazer stays true to its name and offers you the opportunity to lead the way. At the same time, its eye-catching design and class leading features ensure you do it without compromising on style. With its unmatched power and driving experience, the Chevrolet Trailblazer is the undisputed choice for those who choose to lead the pack.

It's an SUV unlike any you have driven before. Turn the page to discover more.

BRUTE POWER MEETS ELEGANCE.

The first word that comes to mind when you see the Chevrolet Trailblazer is 'brute'. It is big and it makes no apologies about it. It looks rugged, yet refined. Its unmistakable masculinity separates it from the herd of vehicles that pretend to be SUVs. It stands apart. Just like you.

The Trailblazer is defined by its dimensions which are the

best in the segment. While its athletic stance dominates both on and off-road trails, its crisp, modern style and sculpted design lines command the kind of admiration and respect that few in its class can even dream of. The Trailblazer's unique design philosophy is complemented by the contemporary Chevrolet-signature dual-port grille and dramatic powerhood dome.

The result is a sense of unbridled confidence and power on the road.

AS TOUGH AS IT LOOKS.

Every inch of the rugged exterior calls for excitement. The aggressive and wide stance of the Trailblazer will make you yearn for adventure every time you see it.

A man in a camouflage t-shirt is lying on a red air mattress in the back of a light-colored SUV, reading a book. The SUV's interior is spacious, with a tan leather seat visible on the left. Various camping items are scattered around, including a red cooler, a blue water bottle, and a wide-brimmed hat. Large windows provide a view of a serene lake and forested hills under a blue sky with light clouds.

CONQUER IN COMFORT.

The Trailblazer puts the power in your hand. And keeps you comfortable while doing it. It has a huge cabin adorned with stylishly designed and comfortable seating for up to 7 adults.

Each seat in the Trailblazer offers plenty of legroom and a comfortable ride experience with premium materials surrounding you and your passengers.

The class-leading spaciousness and flexibility of the second and third-row seating makes each and every ride in the Trailblazer a delightful one.

Think space. Think convenience. Think comfort.
Think Trailblazer.

MOVE YOUR WORLD.

Those who lead hate to compromise, and rightly so. The Trailblazer goes a step further and ensures you don't have to compromise on what to carry along on a family picnic.

The Trailblazer is ready to mold around your needs with its flexible and intuitive seating and class-leading storage space. It generously provides 60/40 second-row split-folding tumble seating and 50-50 third-row split-folding seating to accommodate a range of storage options to suit your needs.

It even offers a flat cargo load floor from the front row till back freeing up 1830 L of storage space.

TECHNOLOGY AT YOUR FINGERTIPS.

Advanced doesn't even begin to describe it. The Trailblazer packs a world of technology into its carefully crafted, dual-cockpit design. The pride of place is occupied by MyLink, an advanced technology interface which puts information and entertainment at your fingertips.

It also pairs via Bluetooth with your compatible smartphone to give you access to your favourite music and contacts. The 6 speaker stereo system brings your playlist to life.

The steering wheel in the Trailblazer is also state-of-the-art and comes mounted with controls for audio and cruise control.

On the outside, the Trailblazer comes adorned with stunning LED tail lamps that provide added depth and detail. The use of advanced LED technology lowers energy consumption and offers extended life.

MAKE YOUR OWN WAY.

One doesn't get to be the leader by following the trodden path. Leaders are made when they take the road less travelled. And the Trailblazer is tailor made to help you do that. Beneath its intimidating exterior, Corvette-inspired dual-cockpit interior and class-leading space sits tonnes of

muscle. The advanced 2.8L DURAMAX engine that provides 200PS (147kW) of power and 500Nm of torque is mated with a 6-speed automatic transmission with active select technology. Together with the sporty suspension setup, they deliver the ultimate balance of power and smooth handling, both on and off the road.

The best-in-class** ground clearance of the Trailblazer helps in transforming any tough surface into a dream trail. The Hill Start Assist and Hill Descent Control make handling inclines and slopes a child's play.

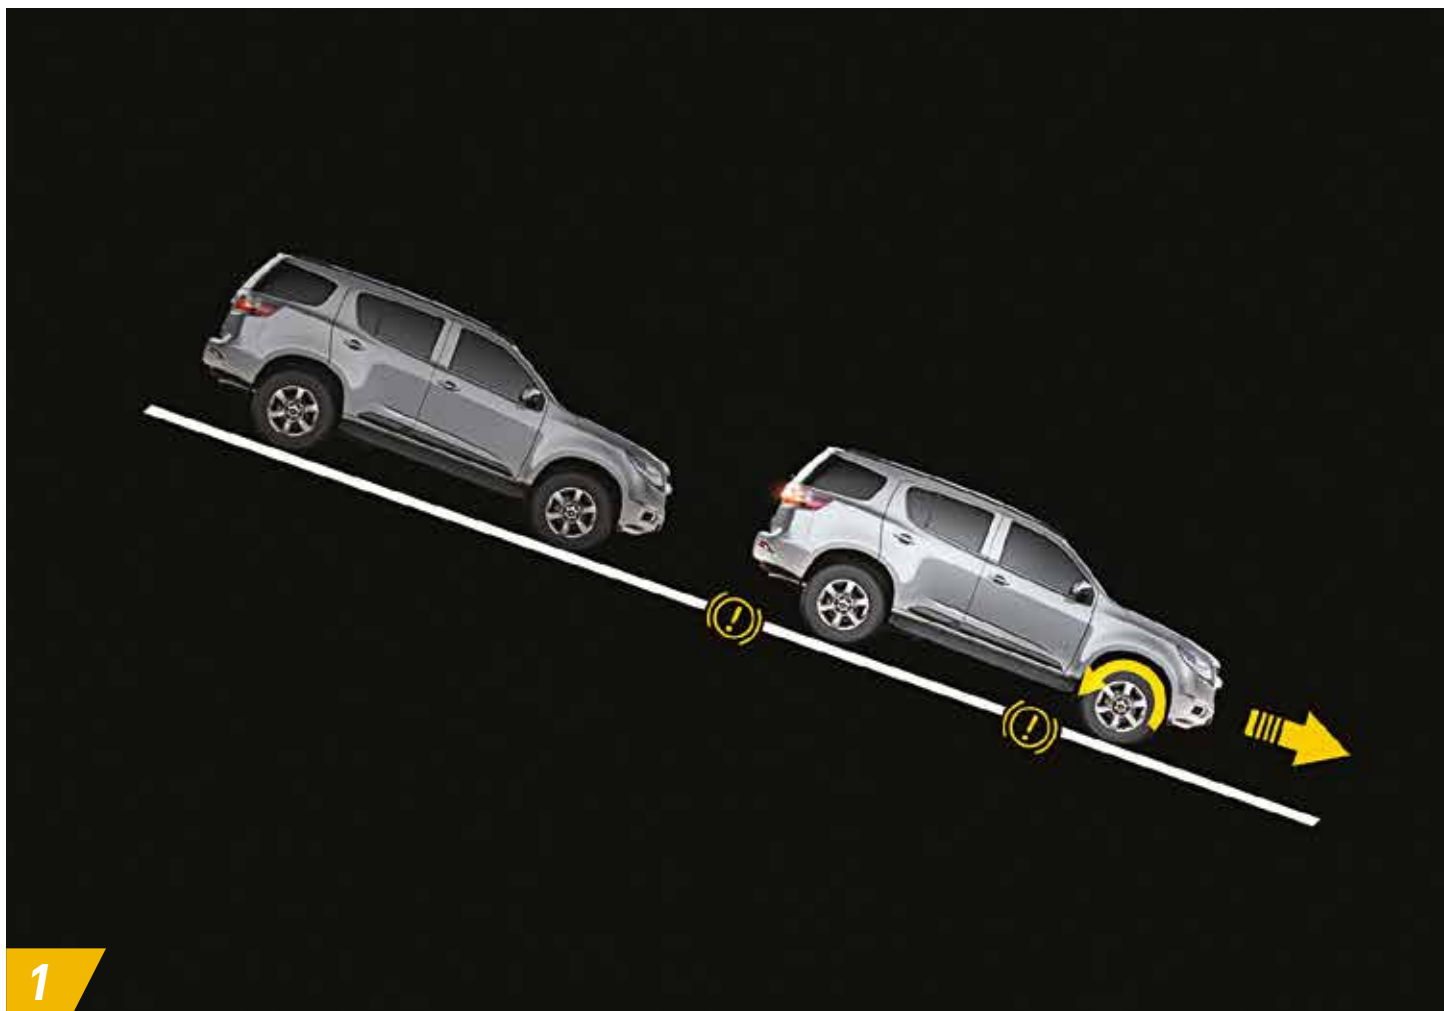

POWER AT YOUR FINGERTIPS.

When it comes to brains, the Trailblazer is clearly ahead of the curve. Intuitive technology rounds off the driving experience you deserve.

READY FOR ADVENTURE.

-
1. The 2.8L DURAMAX engine is ready to get adventurous
 2. The Trailblazer features best-in-class** ground clearance
-

ALL ROUND INGENUITY.

The Trailblazer's vast array of the latest safety features gives you the peace of mind you want, no matter where the road takes you. Especially if that road, isn't even a road at all.

HEADING DOWN HILL MADE EASY.

1. As the vehicle proceeds down a steep slope, the Hill Descent Control system will have the engine and the brake working in unison in order to limit the speed

SAFETY REINFORCED.

The Trailblazer offers you the most advanced safety features. Once inside, you can relax knowing that due care has been taken to keep you and your family safe. Case in point being airbags for the driver and the front passenger.

But attention to your safety doesn't end there. Rear Parking Assist and ABS with EBD are on hand for added assurance along with StabiliTrak™, which includes

Electronic Stability Control, Traction Control, Hill Start Assist, Hill Descent Control, segment unique Cornering Brake Control and Panic Brake Assist.
